SUMMARY

Front-end Web Developer able to listen and insert the ideas of a client or collaborator, and build a sophisticated website for user experience. Currently attending the University of Pennsylvania, Coding Bootcamp, for a Full-Stack Development Certification. Collaborated with groups and classmates, to solve complex situations. Constantly seeking to grow my network. Determined to complete and present the best possible product for the user, researching and understanding API documentation, reading and using different Frameworks, adjusting to time-sensitive matters.

TECHNICAL SKILLS

HTML5, CSS3, Javascript, JQuery, AJAX, Node Js, Unix, Bootstrap , Ulkit, RESTful API's

PROJECTS

[Dream Meets Swipe](#) | [Github Repo](#) | [Deployed site](#)

Back-end Developer

Dream Meets Swipe, is a travel-site that makes choosing a destination easy.

- Combine the *Tinder* randomized swiping as a feasible process in choosing a location
- Capture the user swipes and populate them in a “Matches” Page.
- AJAX/ RESTful API's : Unsplash and Pixabay for location photos/information
- UIKit framework

EXPERIENCE

[Customer Advocate](#) – *MedRisk Inc.* – King of Prussia, PA

2018 - 2019

Managing patient accounts: financial and therapeutic progress. Constant contact with Medical centers and insurance companies.

Key Accomplishments:

- Learn workflows in a short duration
- Managed 50 cases daily: Eastern, Central and Pacific time-zone
- Established great time management skills and communication between insurance companies and medical centers
