

OBJECTIVE

Full-stack Web Developer able to listen and insert the ideas of a client or collaborator, and build a sophisticated website for user experience. Currently attending the University of Pennsylvania, Coding Bootcamp, for a Full-Stack Development Certification. Collaborated with groups and classmates, to solve complex situations. Constantly seeking to grow my network. Determined to complete and present the best possible product for the user, researching and understanding API documentation, reading and using different Frameworks, adjusting to time-sensitive matters.
